Kenneth Cheung

Senior Technology Leader | Solution / Enterprise Architect | Cloud Data Architecture, Data Governance & AI Strategy | Expert in Banking, Consulting, Utilities, Telecom
Markham, Ontario, Canada

Summary

Enterprise / Solutions Architect | Technology Consultant | MBA | Driving Innovative and Strategic Solutions

I am a technology leader with 17+ years of experience in enterprise/ solutions architecture, IT strategy consulting, with S&P500 companies across all industries, with a specialty in financial services and telecom. I've led diverse teams to drive large complex transformation programs with a cloud first strategy (AWS, Azure) from initial requirements to implementation.

With strong experience in application portfolio optimization, data architecture, and cloud security (AWS, Azure), I align applications and infrastructure with business goals. I am dedicated to using DevSecOps and AI to improve agility, efficiency, and resilience.

Specialties: Enterprise Architecture, Application Portfolio Optimization, Data Architecture, IT Strategy, IT Security, AI, Financial Services, Telecom

Experience

Toronto Hydro

Solution Data Architect

January 2026 - June 2026 (6 months)

Toronto, ON

Working within Advanced Analytics & Data Governance to define enterprise data architecture, governance, and AI strategy supporting Toronto Hydro's electricity distribution operations.

- Led the solution architecture for the ENGIN Asset Analytics platform, defining enterprise data architecture, integration strategy, and cloud migration roadmap.

- Designed secure hybrid cloud architecture and automated data pipelines across Azure and AWS, ensuring regulatory compliance, data governance, and enterprise security.
- Led implementation of Microsoft Purview and enterprise data governance practices, establishing metadata management, lineage, and Critical Data Elements across core business domains.
- Designed AI-driven analytics solutions for outage prediction, infrastructure prioritization, and enterprise data quality automation.
- Established enterprise cloud architecture standards, integration patterns, and platform strategy supporting Azure Data Lake, Microsoft Fabric, and Azure Synapse.
- Developed technology roadmaps, architecture standards, and investment recommendations to support Toronto Hydro's long-term data modernization initiatives.

Distributel

Enterprise Architect

June 2023 - April 2025 (1 year 11 months)

Toronto, Ontario, Canada

- Developed and maintained enterprise architecture aligned with strategic goals, enhancing operational efficiency.
- Collaborated with stakeholders to translate business requirements into innovative technical solutions.
- Established architecture standards and policies, ensuring compliance and consistency across the organization.
- Evaluated emerging technologies, leading to improved scalability and security of the company's systems.

ChainGuardians

Tokenomics Lead

July 2021 - April 2023 (1 year 10 months)

Toronto, Ontario, Canada

- Pioneered blockchain architecture and digital asset strategy for a cutting-edge gaming platform.
- Developed a comprehensive token economy roadmap, fostering sustainable economic models for play-to-earn ecosystems.
- Designed scoring algorithms for project evaluation, establishing a data-driven framework for technology investments.
- Conducted advanced data analytics to forecast token economy evolution, optimizing platform performance.

BMO

Director & Senior Business Technology Specialist

April 2012 - June 2021 (9 years 3 months)

- Acted as the primary knowledge and technology resource for Commercial, Process, and Regulatory Practice at BMO.
- Managed technology planning and delivery services, ensuring alignment with the IT investment plan.
- Fostered strong relationships across the Technology & Operations organization, enhancing collaboration and solution delivery.
- Led solution governance and change management, ensuring adherence to BMO's target architecture.

Toastmasters International

2 years

Division B Director

July 2015 - June 2016 (1 year)

North York

- Led and supported the Division by supervising Area Directors, enhancing leadership effectiveness.
- Coordinated division activities and set strategic goals to drive member engagement and growth.
- Chaired Division Council meetings to align Area plans, fostering collaboration and accountability.
- Organized and led clubs in the Division Speech Contest, promoting public speaking excellence among members.

Area 13 Governor

July 2014 - June 2015 (1 year)

North York

- Acted as a key liaison between Toastmasters District 60 and Area 13 clubs, fostering communication and collaboration.
- Conducted regular club visits to assess needs and provide tailored support, enhancing overall club performance.
- Chaired Area Council meetings to strategize and align club goals, resulting in increased member engagement.
- Coordinated successful participation in the Area Speech Contest, showcasing members' talents and boosting morale.

Accenture

Senior Consultant

May 2008 - March 2012 (3 years 11 months)

- Spearheaded the transition to a new pricing model for IT services, enhancing cost transparency and service utilization.
- Developed comprehensive procurement specifications for public transportation, ensuring alignment with client needs and vendor capabilities.
- Led the IT reorganization for a global wines and spirits manufacturer, creating new roles and governance structures based on best practices.

NeXus Consulting

Consultant

May 2007 - August 2008 (1 year 4 months)

- Led a business planning initiative for three social enterprises with a combined budget of over \$400,000.
- Implemented a Customer Relationship Management (CRM) system, enhancing operational efficiencies and stakeholder accountability.
- Increased brand awareness through successful marketing campaigns, including the NeXus Open House, attracting over 60 organizations.

CGI

IT Consultant

June 2004 - August 2006 (2 years 3 months)

- Developed and supported the NetworkX application, managing Bell's \$2 billion outside plant infrastructure.
- Successfully deployed G/MobileViewer to over 1,500 users across Ontario and Quebec, enhancing operational efficiency.
- Contributed to the development and support of the Cramer application for Bell's inside plant infrastructure in central offices.

Unisen Inc.

Java Developer

May 2003 - August 2003 (4 months)

Research In Motion
